

How to Remove Hillarys Graphics

As a Hillarys Car Driver your vehicle will have been delivered with your liveried car. At the end of the agreement your vehicle will need to have the graphics removed prior to collection. You can arrange to have the livery removed by a local sign writer. The cost should be approx. £25 to £50 to remove. Alternatively you can remove the decals yourself using the guide below:

Step 1

Heat the vinyl with a hair dryer on high heat a small area at a time starting with the corner to soften the glue.

Step 2

Use a card to prise up a corner and continually heat the area as you peel the Vinyl Back.

Step 3

Use Car Polish to the area to remove any residual glue.

(Please note that Bowater/Hillarys accept no responsibility for any damage incurred)
